SUMMARY

I am an applied development researcher with almost three years of experience delivering policy analysis for government bodies and international organisations, including GIZ and the British Embassy Jakarta. I have contributed to three regional development plans (20- and 5-year) that were formalised through local regulation and adopted by city and regency governments. Across 20+ commissioned projects I have used both qualitative methods (field surveys, stakeholder interviews, institutional and regulatory review) and quantitative methods (survey design and analysis, financial modelling in R, large-scale text analysis), structuring each project with a MECE analytical framework and carrying it from raw data to final recommendations. I am currently studying a Master of Environmental and Resource Economics at the ANU Crawford School of Public Policy.

EDUCATION

Australian National University, Canberra, Australia

Master of Environmental and Resource Economics, Crawford School of Public Policy 2026 – Present

Universitas Indonesia, Depok, Indonesia

Bachelor of Islamic Economics (S1), GPA 3.86 / 4.00 2019 – 2023

WORK EXPERIENCE

Center for Islamic Economics and Business (PEBS), FEB UI, Depok

Junior Researcher (June 2023 – January 2026)

- Delivered 20+ commissioned research projects on regional development and Islamic finance for government and institutional clients (regency and city governments, GIZ, British Embassy Jakarta, BPKH, KNEKS).
- Ran quantitative and qualitative analysis end to end (survey design, statistical and financial modelling in R, text analysis, stakeholder FGDs), structured with a MECE framework.
- Authored and co-authored policy reports, briefs, and chapters of Indonesia's Sharia Economic Outlook.
- Coordinated with clients and research teams on presentations and final deliverables.

Yayasan Keluarga Muslim (YKM), FEB UI, Depok

Academic Class Tutor (August 2022 – August 2023)

- Developed and delivered teaching materials on academic writing, epistemology, research design, and data visualization.
- Conducted in-person classes and provided individual mentoring to undergraduate students.

Faculty of Economics and Business, Universitas Indonesia, Depok

Teaching Assistant (August 2022 – August 2023)

- Prepared teaching materials, quizzes, and assessments for undergraduate courses.
- Assisted lecturers in delivering in-person classes and academic support to students.

TECHNICAL SKILLS

Software & Tools: R, Python, Excel, Smart-PLS

Methods: Data visualization, data scraping, linear models (cross-sectional, time series, panel data), forecasting (ARIMA, SARIMA, ETS), structural equation modeling, machine learning (random forest, XGBoost), financial modeling, risk analysis, content analysis, sentiment analysis

PROJECTS AND RESEARCH EXPERIENCE

Policy Impact. Contributed to three regional development plans subsequently formalised in local regulation and adopted by their governments:

- Long-Term Development Plan 2025–2045, East Kutai Regency (Perda Kab. Kutai Timur No. 7/2024)
- Long-Term Development Plan 2025–2045, Depok City (Perda Kota Depok No. 12/2024)
- Medium-Term Development Plan 2025–2029, Pematang Siantar City (Perda Kota Pematangsiantar No. 2/2025)

Regional development planning and governance

Support Indonesian city and regency governments in preparing statutory development plans and the systems used to monitor them: designing the analytical framework with the MECE principle, analysing socioeconomic, demographic and budget data against it, diagnosing why past targets were missed, and translating the findings into long-term goals and sector priorities. Includes primary data collection (field surveys across sub-districts, stakeholder interviews and FGDs) and regional economic analysis such as priority-commodity and land-use assessment.

- Identification of Transmigration Area Potential (East Kutai Regency Government, Aug–Nov 2025)
- Strategic Plan, Office of Population Control and Family Planning (East Kutai Regency Government, Sep–Nov 2025)
- Mapping of Business and Economic Potential, East Kutai Regency (East Kutai Regency Government, Jun–Aug 2025)
- Evaluation of Sustainable Plantation Planning in East Kutai (GIZ, Feb–Jul 2025)
- Evaluation of the 2024 Regional Government Work Plan (East Kutai Regency Government, Feb–Mar 2025)
- Grand Design for Development Control, Evaluation and Reporting (East Kutai Cabinet Secretariat, Sep–Dec 2024)
- Technocratic Draft, Tanjung Balai City Medium-Term Development Plan 2025–2029 (Tanjung Balai City Government, Jul–Aug 2024)
- Technocratic Draft, Depok City Medium-Term Development Plan 2025–2029 (Depok City Government, Jun–Sep 2024)
- Depok City Macro Indicators Study (Depok City Government, Jun–Dec 2023)

Islamic finance and economics

Work across Indonesia's Islamic finance and economy (banking, capital markets, non-bank institutions, the hajj fund, and zakat) for clients including the British Embassy Jakarta, BPKH, KNEKS, BP Tapera and Bank Syariah Indonesia. Pairs demand- and supply-side market analysis with quantitative methods: Nelson–Siegel yield-curve estimation in R for hajj-fund placement risk, RAS balancing of the national Islamic-economy input–output table, churn-survey instrument design and analysis, and large-scale text analysis of roughly 100,000 self-scraped Islamic banking app reviews.

- Study on the Hajj and Umrah Ecosystem (BPKH, Dec 2025)
- Gold Investment Study (BPKH, Sep–Nov 2025)
- Roadmap for a Sharia-Based Tapera Program (BP Tapera, Jul–Sep 2025)
- Unlocking Indonesia's Islamic Finance Market Potential (British Embassy Jakarta, Dec 2024–Mar 2025)
- Study on Investment Risk Exposure and BPKH Return Risk (BPKH, Sep–Dec 2024)
- Islamic Economic Macro Indicators: IO Table Update, RAS Method (KNEKS, Nov 2024)
- Study on Jakarta Islamic Economy and Finance Development Roadmap (DKI Jakarta Provincial Government, Aug–Nov 2024)

- BSI Mobile Churn Rate Study (Bank Syariah Indonesia, Mar–Jul 2024)
- Study on Hajj Financial Sustainability, BPKH Placement at BPS BPIH (BPKH, Oct 2023–Feb 2024)
- BAZNAS Human Resources Study (BAZNAS, Jun–Sep 2023)
